

ST. THOMAS AQUINAS TECHNOLOGICAL EDUCATION PRESENTS

# Women In Tech AN EVENING IN DIGITAL

Educate. Empower. Excite.

*Featuring STA grads who learn and work in digital technology*  
**The secret of getting ahead is getting started**

Studies indicate that even when young women score higher in math and sciences, they are still less likely to pursue a post-secondary STEM program compared to young men who score lower in the same subjects.

In order to fix the disparity we need to keep encouraging girls to follow their passions, and challenge stereotypes so they have the confidence and skills to study or work in any field they want.

Join several young professionals and post-secondary students they discuss education and career pathways in an increasingly digital world.

This event is aimed towards girls in grades 6-9 and their parents. We hope to educate and inspire young girls to consider a future in technology. Our guests will tell their stories and provide an opportunity to answer questions.

**Host: Cassandra Jamieson**

**TECHNICAL ACCOUNT MANAGER @ GOOGLE**

Cassandra is currently working in Website Analytics at Google after she spent time at other tech companies such as Adobe, & Xaxis. She started her journey with an internship in the advertising world after earning her diploma at Humber College. She quickly realized her passion for technology which is what led her from advertising to analytics.

**THURS FEB 21 2019 @ 6:30 - 8:15PM IN THE STA THEATRE**

# Our Guests

**Samantha Turchyn**

**ENVIRONMENTS DESIGNER**

Sam recently graduated with an Undergraduate Degree in Architectural Science in 2016 with a concentration in Architectural Design at Ryerson University in Toronto, Ontario. Since then she has worked with numerous interior designers, architects, industrial designers and graphic designers on residential, institutional, and commercial projects.

**Laura Medlock**

**MSC IN COMPUTATIONAL NEUROSCIENCE**

Laura completed her MSc in Computational Neuroscience from Queen's University in 2018. The past three years she has also been working in the start-up space for Click Clack Marketing where she focuses on graphic design, digital marketing & social media. Laura's in the process of applying for her PhD so she can research and teach neuroscience at university.

**Angie Sabatino**

**MARKETING MANAGER**

Angie earned high distinction in the Digital Enterprise Management Specialist program while studying at the University of Toronto Mississauga. For four years she worked in the start-up space at multiple fast-paced software companies, and she has recently ventured into B2B e-commerce at Flowerbuyer.

**Krystina Correa**

**BUILD AND RELEASE ENGINEER**

Krystina earned her Bachelor of Computing at Queen's University in 2018, and worked as a co-op student at the Royal Bank of Canada. She currently works as an Engineer at Firmex, and her typical day includes improving the company's current release & deployment software processes as well as petting all of the dogs in the office.

**Myra Luetke**

**UNDERGRADUATE STUDENT QUEEN'S UNIVERSITY**

Myra is a second year BSc. student at Queen's University. While at STA she completed four courses in computer science and engineering, as well as communication technology. She also earned the Governor General Bronze Medal Award as she graduated with the highest average in grade 11 and 12 courses among her peers.
